Dear Course Tutors,

I am writing to tell you which character from Grimm Life that I wish to audition for. I wish to audition for Carly Grimm as I feel like I would be good for this role because it will be a challenge for me but I feel like I can overcome it and do it. I am also brilliant at memorising my lines before a performance which has helped me with my characterisation and physicality more.

I am also good at asking/taken feedback on board very quickly. I am very good at delivering my lines to an audience and connecting with other characters on stage and projection so that the audience can hear me as well as the other characters. I am committed to rehearsals, performances and auditions as I always make sure that I get to the studio early and be ready and focused.

I have had experience in musical theatre and performing on stage in front of audiences as I have been doing acting, dancing and singing in my course which has helped develop my confidence. Acting is my main passion as I have always dreamt of being on TV as I get inspired by other actresses and also, to overcome obstacles that I am facing.

For the production role I wish to take Front of House as I have never done it before and I feel like it could help me with my confidence by welcoming people.

I hope that you will consider me for this role as it will help develop more on my confidence, teamwork, improvisation skills and I want to challenge myself more and be more involved in the process.

I hope to hear from you soon.

Yours Sincerely,

Aliya Hussain
