

Audition

9/03/2022. This was the day of the audition. We had to come early at 9:00 in the morning so run through the dance for the audition called Grease Lightubng and then we all were put in group of 5 or 6 and then we all danced. Then, at about 10:00 we had to get ready for the acting audition I did mine at 10:50 but the original time was at 10:10 but it got delayed due to some diffucalties. After that we all went home once we finished our audition but the people who had the singing audition stayed all day.

I think that both of the dancing and the acting audition went well because I felt as through I was really into the character; Sandy. The dancing piece went well because I really enjoy myself while dancing so I was really into the dance therefore, this makes the piece looked a lot better.

I think that we could've made us looked like a couple better because I don't think we were believable enough.
