

# **DeerShed**

## **What is DeerShed?**

DeerShed is a Family Festival, which is based in Yorkshire. It is a yearly event, where families/friends camp outdoors for 3 nights.

Exploring and looking around the festival attractions whether it is Music, gaming or etc.

It is a nice break from your average time to help enhance your family experience and time together.

## **What can you do?**

DeerShed has many events, which go on in the Base Camp. Some more practical than others with multiple choices to help best fit your preferences.

In the Base Camp you can watch the shows that will be going on such as Musical Bingo, this is your trial and many more.

You could also listen to the music, which will be hosted by the DJ sets. Bez, Smoove and Turrel etc.

If you are the more practical type and would like to work more hand on you can go to the workshop & Activities. You will be able to do lots of activities from spike and sponge raves to dance sessions and storytelling.

That is not all DeerShed has many more events from comedy to sports or even your wellbeing with meditation.

## **My thoughts on DeerShed**

DeerShed seems like a place where parents would like to take their kids for not only spending time together but find new hobbies and interests. It is a place of exploration, learning and bonding. If I am to make a game that will be shown within this event, I will need to make a game that will utilise these 3 themes and put them together within one game.

## **Extra Information**

DeerShed has been together for 12 years. It was first a small-scale event and eventually grew. It is based in an open area with manually built attractions and event brought along. It was first staffed by volunteers until it slowly grew. The volunteers have later on become paid employees and had invited other volunteers slowly creating a cycle.
