Strengths

Building

I believe I make realistic buildings with detail. For example, my previous gate, garden and doors.

Scripting

Although it is difficult to learn for beginners, I believe I have a good understanding of beginners scripting.

Concept

I believe write my concept art in detail for not only myself, but also for others to understand.

Research

I believe I research and write it down to the point of which anyone will be able to read and understand it.

Development Needed

Scripting

Although I believe it is a strength, I believe you can never know enough and I can always develop on it.
