My name is Michael and I am 20 years old, I am a focused hard worker on top of being very punctual I, some of my passions are gaming and anything to do with computers in both the hardware and software industry I also enjoy graphic design/video editing which I do in my spare time. I am open to working in many different fields and do not care if the work is more practical focused or if the position is more remote such as any work required to be done on a computer. I am extremely passionate to learn no matter what the work maybe and will always try to give my best no matter what I am doing.
