Competent execution and application of techniques used to develop ideas.	Consistent and appropriate processes, skills and knowledge applied to extend enquiry and develop creative solutions.	In depth understanding and aesthetic awareness, imaginative and flexible processes, skills and knowledge applied in extensive enquiry to develop creative solutions.
<b>Evaluation and reflection</b>	Insufficient evidence of ongoing evaluation, lack of or only basic analysis and little or no justification for ideas.	Clearly communicated evidence of valid evaluation and realistic analysis independently used to inform and develop ideas.	Effective communication of analysis and interpretation, independent synthesis of information and application of reasoned decision making to inform development of ideas.	Accomplished and professional communication of perceptive analysis and interpretation, demonstrating clarity and sophistication in thinking and maturity in decision making to progress ideas.

### Comments:

Well done Tia, you have completed this project to a good standard. The work submitted meets all the assessment criteria and is of a high standard. This is an impressive portfolio submission! Your practical documentation is excellent and you have demonstrated your skills clearly. However, there are still some areas for improvement.

Context – You demonstrate a very good understanding of the compositional areas through your commentary. You gave a good explanation of music in context through the decades with some excellent examples.

Research - Your research is very thorough but mainly utilises lecture material and websites. Your score analysis is very good harmonically but you could have also commented on the structure and rhythms further. The compositions you chose to analyse are appropriate and your analysis is detailed and accurate. It would have been nice to have seen more research and documentation on music theory and how you applied this to your compositions. It is important to include research from a variety of sources including books and journals. Referencing these sources correctly is also essential – you must use Harvard referencing. [Citethisforme](http://citethisforme.com) is a website that can help you with citations.

Practical Skills - You have clearly documented your practical skills through the developmental stages in video and audio format. I thoroughly enjoyed all of your compositions and you have shown that you are adept at working with Sibelius and Logic. You used some extended string techniques where necessary to explore the range of the instruments.

Evaluation and Reflection - Your evaluations and reflections are detailed and ongoing. You make clear points about areas for improvement and communicate your ideas effectively.

Overall, this is a very good submission for your second project. Well done! Your work is presented very neatly but be careful when organising and putting work in tabs as some of the work is in a confusing order. You have shown that you are a very capable composer in a variety of styles, especially using Sibelius and Logic. This is an area that I encourage you to explore further in the future.
