Comments:

Well done Tia, you have completed this project to an excellent standard. The work you have submitted meets all assessment criteria and is of a very high standard. This is an excellent piece of writing which displays your talent as a researcher and academic.

You have articulated your variety of ideas for research topics clearly and in detail, situated within the context of your own studies.

You have documented a variety of sources, including using opinions from professional performers and improvisers. However, you chose not to use all your sources in your essay which is perfectly valid. At a higher academic level there would be an expectation to see more sources than you have referenced. You do have enough sources for the length of the essay this level.

You have explored the problem posed by your question 'Keith Jarrett's Art of Improvisation'. This is a question which you tackled effectively throughout the report like format of the essay. The sub headings show this essay was planned carefully and structured in a coherent manner.

Your analysis and conclusion show insightful findings that will help you progress in your final project.

The presentation of the essay and project is formal and academic in approach which suits the project brief.

This is excellent work completed to a very high standard Tia and it makes brilliant reading. Well done!
