Children's Intelligence Agency spy game uses critical thinking to solve global mysteries. The app features 'Hack Mode', which allows kids to break secret codes and send secret messages to friends. This game also features a Voice Changer to modify your voice, and become an alien, a robot, or even a grown-up.

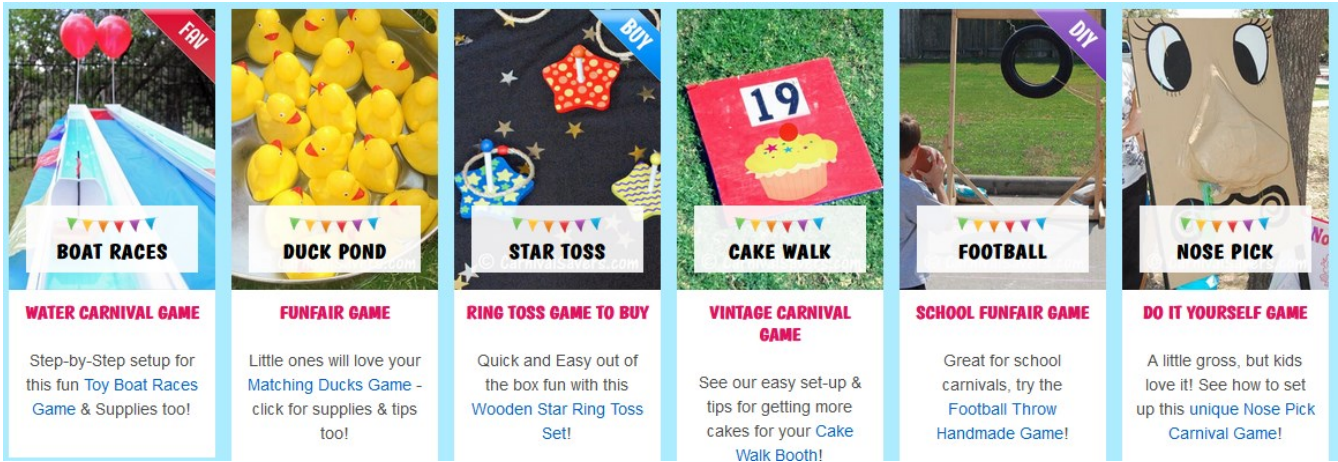

<https://secret.cmhouston.org/start-your-mission/>

This online platform is an interactive secret agent game experience and club for children. Kids use knowledge, skills and creativity to complete different missions physically at the museum. Kids report to duty and are assigned to go on secret missions throughout the Museum and earn points for prizes.

<https://spymasters-games.com/home-missions/>

This is a spy adventure game that can be played on computer and in the home. It's an indoor activity for kids aged 6 to 11 years which gets the kids climbing, crawling and running around the house rather than sat in front of the screen. The Game instructs the players to crack security systems, dodge the cameras and duck through lasers as you search for clues, crack codes and solve puzzles. It's a thrilling race against time! Which has just two hours to save the world.

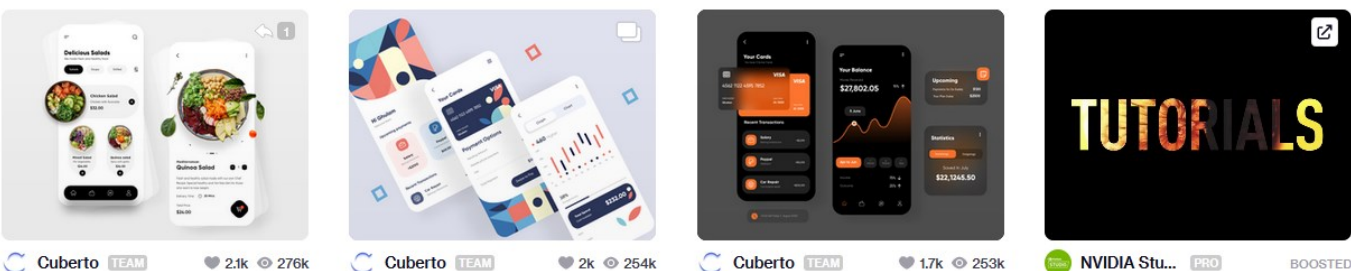

<https://www.carnivalsavers.com/freeboothideas.html>

Looking at different carnival and festival game ideas. Which games are more fun and interesting to children and which activities do kids enjoy more. I was researching on what kinds of prizes are given at festivals and how the children can complete with one another to win the prizes and awards.
