Bradford

City of Culture 2025

What is City of culture 2025?

The City of Culture is embracing young people with opportunities to celebrate the Bradford district, influencing them into becoming a population which is diverse. Introducing the youth with different career paths and making them become leaders, for themselves, for their surroundings and for Bradford itself. This is to make a new story, a new change in Bradford story.

Okay, then what?

So, this means as a community, these youth we have an opportunity of 1000 performances and events that are taking place. Which can involve art festivals, music festivals, food festivals and much more, embracing national and international calibrations. Therefore, this means, us people shall seize this moment, this once in a lifetime moment and show the ambitions of us Bradford youth.

We need to show our youth our new ambitions, the magic hidden in Bradford. The hidden characters and unique ambitions in Bradford.
