

**Level 3 Diploma Unit 8 Project Proposal pro forma**

<b>Name</b>	Ellie Nowell
<b>Pathway</b>	Media makeup and Special Effects
<b>Project title</b>	FMP
<b>Section 1: Rationale (approx. 100 words)</b>	
<p>I have learnt special effects skills that before this course I had never done before. The skill I used the most is brow – blocking which comes in handy in so many ways. I have also learnt how to keep in a period. Before this course I would always take too long doing makeup. However now, from the assessments I have learnt to be quicker which is needed in industry. Finally, the best thing I have learnt is not everything is for everyone. I came on this course excited to try out new things and it has given me a lot of guidance to which part of the industry I would rather go down than others in my career.</p>	
<b>Section 2: Project concept (approx. 200 words)</b>	
<p>In my next 3 projects I am aiming for the best grade. To achieve this, my goals is to work on different people for each project. This will build my practical skills as people have different skin tones and features which will give me a challenge. Also, aiming for the highest grade possible I want to get creative with my ideas and think out of the box. I think it is important to challenge myself and do something out of my comfort zone. Finally, I want to develop my researching skills and add more face charts and mood boards to my scrapbooks.</p>	
<b>Section 3: Evaluation (approx. 50 words)</b>	
<p>In my reflection on my work, I am going to ask for feedback from my models, communicate with them and work as a team getting more ideas on how I can improve constantly. I am going to try out new products and work with them until I create a piece that applies all my skills I have learnt in the past year.</p>	
<b>Proposed research sources and bibliography (Harvard format)</b>	
<p>I am going to be using primary and secondary research. In my research I will be looking in magazines, social media, films, websites and using my own knowledge.</p>	

<b>Project action plan and timetable</b>			
<b>Week</b>	<b>Date week beginning</b>	<b>Activity/what you intend to do - including independent study</b>	<b>Resources / what you will need to do - including access to resources</b>
1	23/3/22	Get an understanding of the project.	Research and get ideas to start planning my look.
