Comments:

Well done Jozef, you have completed this initial assessment to a satisfactory standard. You clearly enjoy performing as a guitarist and this comes through in quality of the video with the filter you added (I really liked that old school look!). You can clearly play guitar but at times there is a lack of fluidity and accuracy in your playing. It would have been even better to hear your guitar over a backing track without the guitar on – this is something to research and practice in the future. You will be able to work to improve your playing in lessons with your guitar teacher. You have analysed your own performance accurately but it is very brief – this requires more detail in future, especially in terms of how you plan to improve. Don't be afraid to ask for help if you need it. Overall, you have completed this initial assessment successfully, well done!

Please now set yourself three SMART targets to improve after receiving this feedback.
