Comments:

Well done Blake, you have completed this initial assessment to a satisfactory standard. You are a confident drummer and this comes through in your performance video. You have compiled several clips together to show a wide range of styles and techniques as well as performing with another musician. You have mentioned the audio quality is 'quite poor' and this is something to improve in the future once you learn how to record professionally in Project 3. Your evaluation is extremely brief and lacking detail. You need to be more critical at this level. You should try to watch/listen back to your performance and make notes of where you have been successful and could improve further. You stated that you 'messed up' – try to be more detailed and state exactly how and why you 'messed up' in future evaluations. Also, use resources on digitalspace to help you complete your work as this gives explanations about completing evaluations and written work. Overall, you have given a strong performance on the drums and have lots of potential as a performer. Try to be more detailed with your written work in future!

Please now set yourself three SMART targets to improve after receiving this feedback.
