Project No. and Title: 3 – Exploration and Research

Units Covered: Unit 10: Exploration of specialist study in music performance and production

Overall Grade: **GOOD**

Assessor: Nicolas Sykes

Date: 21/02/23

Comments:

Well done Blake, you have completed this project to a good standard. The work you have submitted meets all assessment criteria and is of a high standard. This is a very insightful piece of writing full of interesting opinions and information. I know you do not necessarily enjoy academic writing, but you have worked hard on this essay.

There are several different project ideas listed at the beginning of this project – although they could have been fleshed out with more detail.

Your concept of Prodigy samples as a research topic is clearly something you are passionate about and it was tackled with originality, including a variety of secondary research sources. You are very knowledgeable about this topic and highlighted lots of interesting information.

You could have presented your essay more paragraphs or under headings to make the structure of your essay more coherent.

There are lots of original findings and it could be a good idea to try some of the suggested sampling methods out. It would have been excellent if you had included some audio or video files to show how some of the Prodigy's processes worked.

You do not really provide a conclusion to evaluate your research which would be expected in an academic essay.

Well done Blake, you have implemented a variety of research techniques and expressed your knowledge and ideas!
