

Week	Session	Activity / What you are intending to do - including independent study	Resources / What you will need to do it - including access to workshops
1 – 6 <sup>th</sup> March	Mon AM	in the starting weeks I will begin by conducting research for the project. In Monday's morning session I will start by researching what synthesis is, how it has been used, what is its modern-day uses are, and what kind of artists use them.	Computer Mouse Keyboard Headphones
	Mon PM	In Monday's afternoon session I will continue by researching the various kinds of synthesis such as modular and granular synths, and how these differ from one another. I will also investigate the synth software I will be using (Oscillot).	Computer Mouse Keyboard Headphones Oscillot software
	Tues AM	In Tuesday's morning session I will start by researching who Aphex twin is, what music he creates, and how he creates it. I will watch documentaries and read articles on him to do my research. I will then go onto researching other similar artists in the genre and see how they compare to each other in the methods they use. As well as their methods, do a little research into their artworks, and see the kinds of art they go with their music.	Computer Mouse Keyboard Headphones
	Tues PM	In the afternoon session I will begin on looking into what drum rhythms I want to record for my track, Ableton techniques, and drum replacement, and what equipment I will need to correctly record my drums, e.g.; what mics to use and where to place them for the best quality.	Computer Mouse Keyboard Headphones
	Weds PM	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
2 – 13 <sup>th</sup> March	Mon before Italy	Since in this week we'll be having a shorter week and heading off to Italy, I will use this Monday morning slot to look over my research and finish off any last bits I may need to finish off. I will then begin researching into the software I will be using. In the morning session too, I will start communicating with Paul what kind of artwork I want to produce. 		<ul style="list-style-type: none"> <li>• Start of Italy trip</li> <li>• In Italy, I am planning to capture some audio to use for my final track.</li> </ul>	
3 – 17 <sup>th</sup> April	Mon AM	Getting back from Italy and after the 2 weeks easter break, I hope to have done some extra work on home on research and experimentation, Today I will continue to research and experiment with the software. In this time, I will begin creating some basic ideas, and get a better feel for the software, which will then allow me to create improved synth parts.	Computer Mouse Keyboard Headphones Oscillot software
	Mon PM	In the afternoon I will begin by looking heavily into the software Oscillot, the synth program I have decided to use within my project. I want to research how to use it, as well as sit down and start to experiment.	Computer Mouse Keyboard Headphones Oscillot software

	<b>Tues AM</b>	since these synths are an integral part to my project, I want to make sure I have plenty of experimentation time to get to grips with software, without this time spent on experimentation I would be forced to go into the project blind as I would have little to know idea on how the software's used in a practical setting. So, I would like to use this entire day to experiment	Computer Mouse Keyboard Headphones
	<b>Tues PM</b>	- Continued	Computer Mouse Keyboard Headphones
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
4 – 24 <sup>th</sup> April	<b>Mon AM</b>	Beginning this week, I will start by going into the live studio and experiment with different drum rhythms and techniques, I will watch some videos and listen to some tracks to get some inspiration for what I want to play. During this time, I will capture some videos to evaluate my progress. I will as well in this morning slot will start producing ideas for my artwork and will continue to do the same throughout the next few Mondays sessions	Live suite Drumkit Drumsticks Microphones
	<b>Mon PM</b>	I will be experimenting on the drums but focusing on playing to click. Since I am recording the drums, I will be experimenting with drum replacement, and augmenting the audio, it will need to be as close as possible to click to enable me to get it as good as it can get. This is why it is important for me to spend a few hours just practicing a little more playing with a metronome	Live suite Drumkit Drumsticks Microphones
	<b>Tues AM</b>	Today will be the day I will record the drums. I will spend the morning slot setting up the microphones and testing out the recording equipment, experiment with different placements of the microphones, and try to get the best sound for me.	Live suite Drumkit Drumsticks Microphones
	<b>Tues PM</b>	In the afternoon I will start on my actual recordings, I will record many short audio clips and try lots of different rhythms and single hits, I want anything from simple beats to complex rhythms as everything will come to be useful to me. Since I will be splicing up the drums, having as many recordings as possible will be critical to me as I need a large variety to work with.	Live suite Drumkit Drumsticks Microphones Live suite mac Logic pro x Ubs stick

	<b>Wed PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	
5 – 1st - May	<b>Mon AM</b>	I would like to produce ideas for a structure for the track. In my last project the structure was a big obstacle because I never thought about it, so when it came to piecing my track together, I found it quite difficult, so in this project I would like to take some time to plan what instrument I am going to have, and what is going to go where.	Computer Mouse Keyboard Headphones
	<b>Mon PM</b>	I would like to start to produce some of the instrument parts and produce some ideas of what each part will be, start to experiment with them, and put them into a rough structure, on Ableton	Computer Mouse Keyboard Headphones
	<b>Tues AM</b>	I want to spend this Tuesday creating a basic melody bass part for the track	Computer Mouse Keyboard Headphones Ableton
	<b>Tues PM</b>	From the morning I will continue and create basic ideas of the bass parts, as they will play a vital role for me.	Computer Mouse Keyboard Headphones Ableton
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.  This Wednesday, however, will also include some primary research from my drum tutor. I am planning to ask him questions on drum replacement, his experience with it, and tips for mic'ing up the drums to get a good sound, this will be captured though a recording and evaluated this Wednesday afternoon.	Computer Mouse Keyboard Headphones
6 – 8 <sup>th</sup> May	<b>Mon AM</b>	In this session I would like to take a good look at where my artwork is at, and hopefully have a promising idea of what I want to create by this point, using the time in this session I would like to start creating a rough draft on a pencil and paper of my final artwork will eventually look like	Computer Mouse Keyboard Headphones Pencil Paper
	<b>Mon PM</b>	This week will continue with the main production of the track, within this week I hope to have achieved a bass part I like as well as begin creating some chords, I've previously struggled with chords so I'm planning on giving other tracks a listen to gain some inspiration, I've also purchased an application to help with chords which gives a drag and drop list of chords within every key, so in this session I would like to experiment with that application, and come up with a few chord progressions I could work with	Computer Mouse Keyboard Headphones Ableton

	<b>Tues AM</b>	Now I have an idea of instrumentation, some chords to play with, and a bass part to use, I want to now focus on the drums. In this morning session I would like to experiment with my recordings, cutting them up, putting effects on them and putting granular effects on them.	Computer Mouse Keyboard Headphones Ableton
	<b>Tues PM</b>	Continue with experimenting with drums in the afternoon and begin to piece them together with the other parts of the track	Computer Mouse Keyboard Headphones Ableton
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
7 – 15th May	<b>Mon AM</b>	This week now I have an idea of each part of the track, I want to put them all into a structure. I want to piece them together and have a basic draft of how the track will sound	Computer Mouse Keyboard Headphones
	<b>Mon PM</b>	With a basic structure in place, I want to use this time to revise the track and see what major changes I would like to do	Computer Mouse Keyboard Headphones
	<b>Tues AM</b>	In this session I want to look over the problems I will find and begin to change them, whether that is change a part all together or tweak some automation, I want to use this entire day to tighten up the track and change what I think needs doing	Computer Mouse Keyboard Headphones
	<b>Tues PM</b>	- Continued	Computer Mouse Keyboard Headphones
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
8 – 22 <sup>nd</sup> May	<b>Mon AM</b>	Today I would like to spend time looking at my artwork again, I want to have at this point a drawn-out sketch of what I want, and it scanned and evaluated.	Computer Mouse Keyboard Headphones
	<b>Mon PM</b>	Since this is the last few weeks ahead, I hope to have at this point a near finished track, I also hope to have worked on it at home as well. With this time now I would like to use it to finish the track off or at least get it to a good state, as well using this entire day to achieve that.	Computer Mouse Keyboard Headphones

	<b>Tues AM</b>	I will use Tuesday as another review day to review the track. I want it finished, but it finished well, so I will use this entire day to look over the track and complete any further changes I would like to make to it.	Computer Mouse Keyboard Headphones
	<b>Tues PM</b>	- Continued	Computer Mouse Keyboard Headphones
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
9 – 29 <sup>th</sup> May	<b>Mon AM</b>	This week will be used for starting to mix and master the track, I would like to start Monday off by researching a little more on how to correctly mix a track	Computer Mouse Keyboard Headphones
	<b>Mon PM</b>	In the afternoon I will begin mixing the track making any adjustments where needed	Computer Mouse Keyboard Headphones
	<b>Tues AM</b>	Tuesday morning, I would like to research more on mastering so I could begin on that once the mixing is done	Computer Mouse Keyboard Headphones
	<b>Tues PM</b>	in this afternoon session I will continue with the mixing and mastering, but I hope to have over this next weekend finished off the track entirely ready for the final evaluation	Computer Mouse Keyboard Headphones
	<b>Weds PM</b>	Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.	Computer Mouse Keyboard Headphones
10 – 5 <sup>th</sup> June	<b>Mon AM</b>	In the morning I am going to spend this time packaging together the artwork with the track and upload it onto wherever I chose to upload it.	Computer Mouse Keyboard Headphones
	<b>Mon PM</b>	In the afternoon I would like to ask for peer feedback which will help when doing my final project evaluation	Computer Mouse Keyboard Headphones
	<b>Tues AM</b>	During the final sessions I would like to take time to proofread my digital space and make sure everything is correctly uploaded, as well as begin on my final evaluation	Computer Mouse Keyboard Headphones

	<b>Tues PM</b>	<b>In the afternoon I will continue and finish off with my final project evaluation. Do a final check to make sure everything is there and uploaded.</b>	<b>Computer Mouse Keyboard Headphones</b>
	<b>Weds PM</b>	<b>Wednesday's sessions are where I will have the chance to look over my work so far, throughout the previous week, and reflect and evaluate what I have done.</b>	<b>Computer Mouse Keyboard Headphones</b>
