- **Aruba-Work Experience** 2023/08/16-2023/08/30

In Aruba, I collaborated with a team to explore the island's rich culture and art scene. We conducted interviews with many well-known and respected local actors, ensuring a professional and trustworthy environment that made the artists feel comfortable sharing their work with us. Despite the challenges and stress that arose, we remained positive and proactive, fostering a supportive atmosphere for everyone involved. Ultimately, our efforts culminated in the successful production of an impactful documentary. In Aruba, I also served as a translator for my team, translating from Spanish to English, as Spanish is one of the main languages on the island. This experience significantly improved my communication skills in both languages and made me an effective translator for my team.
