3 main ideas

Short Film

01.

I thought of making a short film, which is one of my strong areas. I wanted to change the genre this time and do something else, not a thriller. After some thought, I have decided to go back to one of my favourite topics, which is really powerful as well: mental health.

Musical

02.

I have always had a very deep connection with music, and I have always wanted to make something related to it. So, I was thinking of adding some music to my short film, which I might do, by adding some songs that I sing myself.

A Song

03.

As I said, I have a huge passion for music, and I have been wanting to make a song or musical for a long time now. I aimed to create a mix of South Asian songs or maybe Spanish ones from bands like Estonia, Juanes, Fito & Fitipaldis, to South Asian artists such as Ali Zafar, Kishore Kumar, and Mohammad Rafi.

✨ SHORT FILM

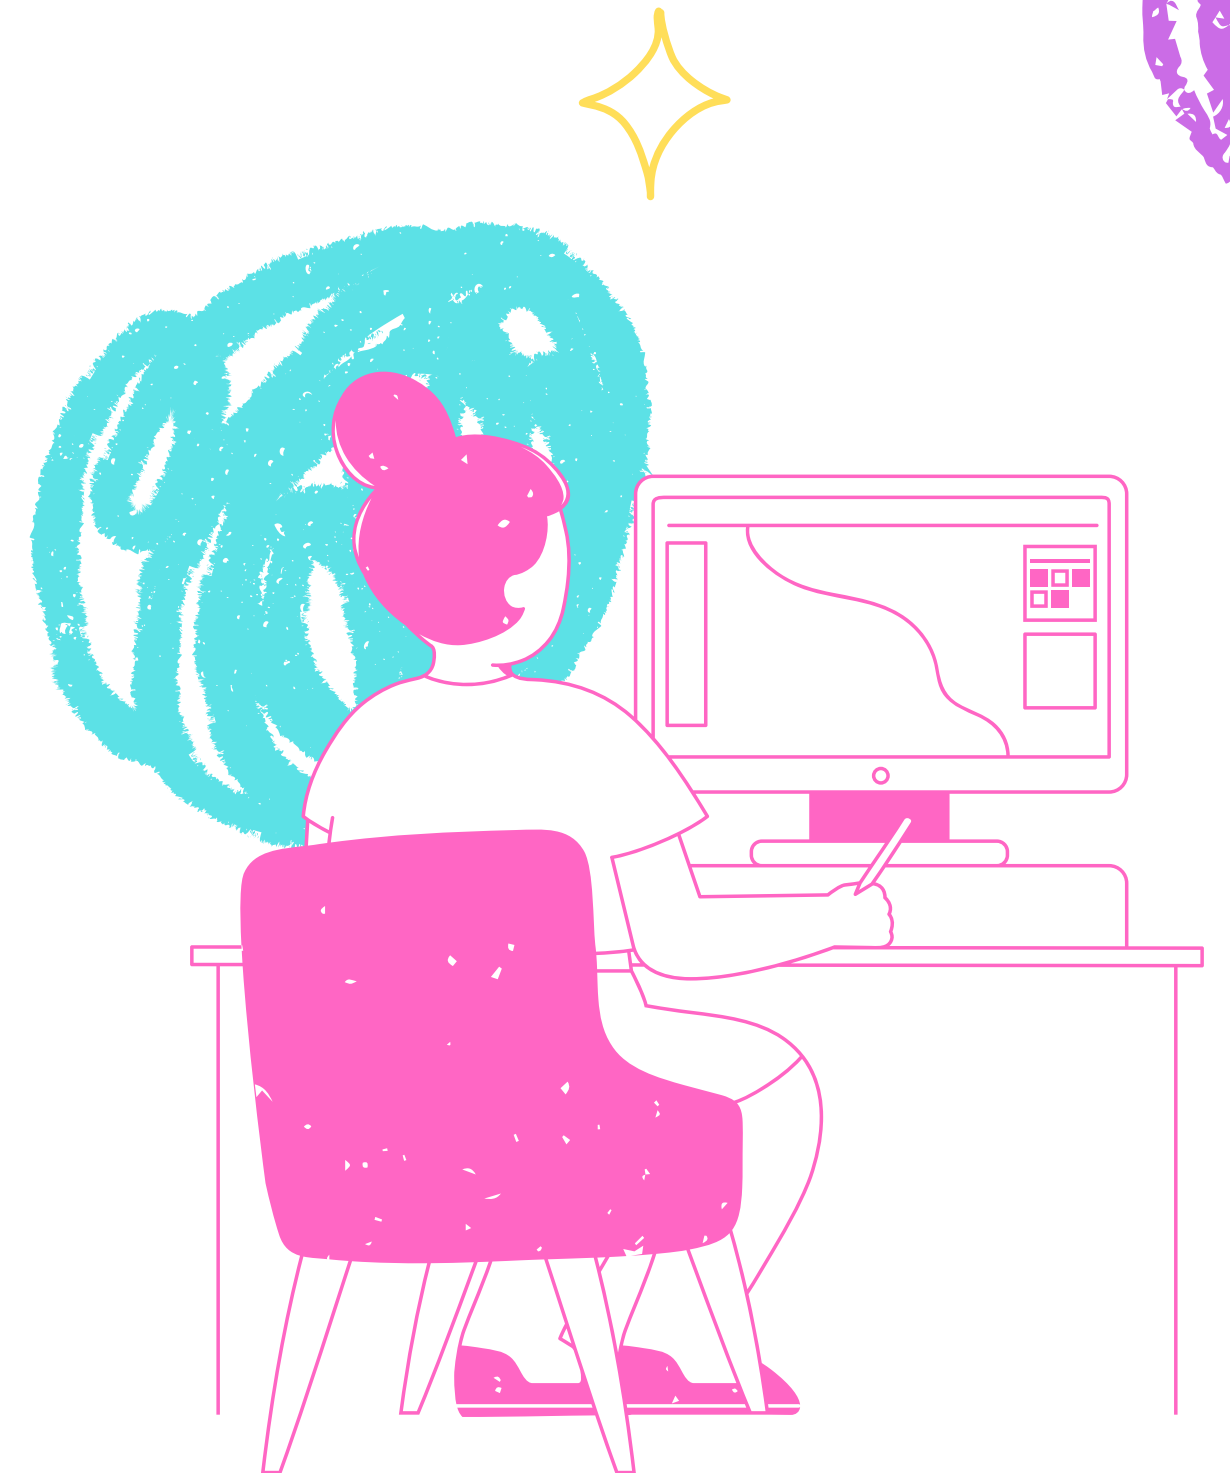

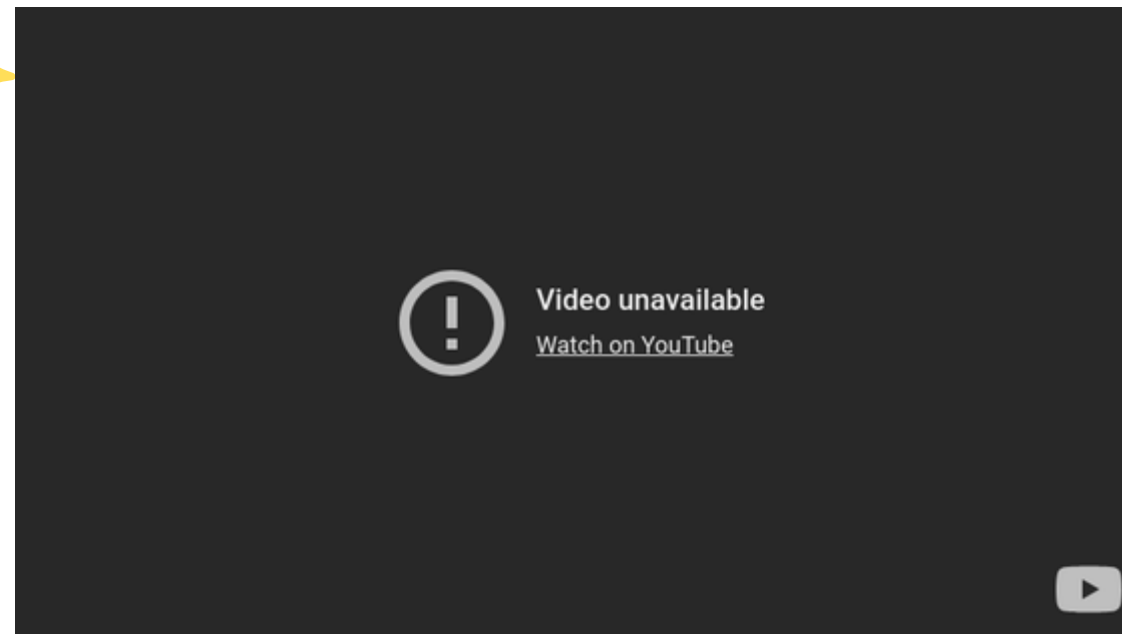

- I've decided to make a short film this year, and I will be performing in it.
- The idea is to create something that meets industry standards and looks as professional and high quality as possible.
- This time, I want to make something that could easily fit as a short film for the industry or film festivals. I'm aiming to use copyright-free music or, if possible, ask someone to compose an original theme for me. I
- will probably work with the media makeup team again to give my short film a unique look.
- length to be about 10 minutes
- I have different ideas for the film's title, such as "Smile" and "The Paradise of a Lover." After careful consideration, I've decided to go with "The Paradise of a Lover" as the title for my short film.

Inspiration

my inspiration has been these beautiful songs composed with love and passion that have made me look up to them as an artist, and decided that this will be the atmosphere I will be adding in my short film.

- Mujhey tum nazar se
- Bossanova from Estopa
- Aye dil kisi ki yaad mein
- Dil toh bacha hai

whats my target ✨

- I'm aiming to surpass my my last project and improve in all my skills In filmmaking,
- this is going to be my last project before University
- I want to do my absolute best to be ready for Uni
