Comments:

Well done Luke, you have completed this initial assessment to a satisfactory standard. You are a very capable producer and you have created an enjoyable bear. You have been largely successful in producing this piece but the mix could be more balanced and it would be nice to see you compose your own music rather than only use samples. I would also like to see a video/screencast of your production techniques in future also. It would be nice to see you collaborate with other musicians, producers and singers in future projects and songs. Your evaluation is rather limited. You need to provide much more detail in future evaluations to inform and develop ideas. You should try to include more areas for improvement, for example, learning a particular technique or skill. Also, use resources on digitalspace to help you complete your work as this gives explanations about completing evaluations and written work. Overall, you have submitted an interesting and well produced song and show potential as a producer. Try to be more detailed with your written work in future!
