Comments:

Well done Clarke, you have completed this initial assessment to a Satisfactory standard.

You have performed a difficult piece of music and clearly have a lot of ability on the guitar. The choice of sound is appropriate, and the rock/metal techniques are effectively implemented. You have done this as a solo performance, but it might have been better to have used a backing track or added some vocals to make it more engaging for the viewer. This would have given you more to reflect on too. The evaluation is very short indeed, almost incomplete, and this is something to work on in future projects. Try to think about how you would improve, rather than just stating what went wrong. Did you need more practice? Or another go at recording it? Thinking about this will help you with future performances.

Please now set yourself three SMART targets to improve after receiving this feedback.
