Clearly communicated evidence of valid evaluation and realistic analysis independently used to inform and develop ideas.	Effective communication of analysis and interpretation, independent synthesis of information and application of reasoned decision making to inform development of ideas.	Accomplished and professional communication of perceptive analysis and interpretation, demonstrating clarity and sophistication in thinking and maturity in decision making to progress ideas.

Comments:

Well done Lukass, you have completed this initial assessment to a satisfactory standard. You did well considering you enrolled onto the course late and how little time you had to prepare this performance. You clearly enjoy performing as a guitarist and this comes through in your performance. You can play the guitar but you need to work on your fluidity (timing) to maintain a steady tempo as well as practicing more complex songs – possibly songs with barre chords. You have suggested you could perform with a backing track which is a good idea. You will be able to work to improve your technique and fluidity with your guitar teacher. I look forward to your seeing you improve as a performer in the first project and throughout this first year. You have presented your work neatly and analysed your own performance successfully. You have identified some areas for improvement. You should try to be more detailed in suggested how to improve in the future and use musical terms where possible. Overall, you have completed this initial assessment successfully, well done!

Please now set yourself three SMART targets to improve after receiving this feedback.
