

# Presentation Project 4

# What will I do

- ▶ I was thinking of doing a keyboard cover of the song 'Perfect' by Ed Sheeran. By keyboard cover I mean that I am going to try making the drums, the melody, the bass, the guitar and the strings the same as it is in the song.

# What do I need

- ▶ What I need? I need my keyboard, my soundcard, my laptop for Cubase and soundproof mats so when I record and make every instrument in the keyboard no sounds from outside of the room will be in the recorded piece.

# What's my timeline plan

- ▶ Week 1 – understand the chords and basics of the song
- ▶ Week 2 – start producing the drumbeat
- ▶ Week 3 – add the bass and guitar with chords from the transpose 0
- ▶ week 4 – add the strings and pad so that the music sways just like the exact same piece
- ▶ Week 5 – play all the recorded instruments all in one and mix it if it needs for example adding reverb, echo and etc. Then promote it on social media
- ▶ Week 6 – evaluate.

# What do I hope to improve on?

- ▶ I hope to improve on my promotion and evaluation skills because I'm not very good at writing and promoting my music and skills on social media and I want to improve on my physical practice because sometimes I don't know what I'm doing so I need to set concrete goals and practice with purpose.
