Effective communication of analysis and interpretation, independent synthesis of information and application of reasoned decision making to inform development of ideas.	Accomplished and professional communication of perceptive analysis and interpretation, demonstrating clarity and sophistication in thinking and maturity in decision making to progress ideas.

Comments:

Saif, you struggled at first within this project, probably because you were still new and unsure of the group. However, by the end you have come out of your shell and your confidence is really beginning to shine. You brought life and character to this narrator and you warmed up the audience wonderfully, well done.

Context:

Understanding of subject context used appropriately to make judgments, describe aims and clarify purpose.

Research:

Sufficient relevant information has been gathered, documented and used in the development of ideas.

Practical and presentation:

Consistent and appropriate processes, skills and knowledge applied to extend enquiry and develop creative solutions

Evaluation and reflection:

Clearly communicated evidence of valid evaluation and realistic analysis independently used to inform and develop ideas.

Areas for Development:

Saif, your practical work is good, moving forward we need to put a little more focus on developing this scrapbook so it can reach the same level of quality. See below for your targets on improvements.

Targets:

- For research and context, use the questions on teams to really push your understanding and develop your scrapbook further.
- For planning and production, use images and videos to back up your written part. Include a risk assessment as well. These are an important part of planning.
- For your practical work, remember to make note of your development. What areas do you feel need improvement, Vocal range? Confidence? Focus? Or something else. Set your self-targets for these in your reflections.
- When reflecting be sure to again use some of the questions on teams to help guide your reflections. If you are struggling with remembering what you learned, take a voice note on your phone straight after the session, these can also be uploaded to digital space as evidence towards your reflections.
