

Intro

Hey everyone, this is Ahmed Raza, and today I'm sharing my thoughts on WWE 2K25.

INTERGENDER MATCHES – RESPECT FOR WOMEN

Firstly let's talk about the Intergender match type being in the game. Men and women should have their own divisions and compete separately. It just feels weird seeing them wrestle against each other. Keeping them apart keeps the game more realistic and respectful.

MYFACTION MODE – A CASH GRAB

Secondly, let's talk about MyFaction. MyFaction feels like a cash grab on 2K's part for it forces players to spend real money to unlock cards and wrestlers. 2K should focus on making the game better instead of adding modes that just make them profit. They should remove MyFaction completely.

LOOKING AT THE POTENTIAL FOR WWE 2K25 AND IDEAS

WWE 2K25, 2K should focus on adding great features instead of money-making modes. They should bring back Create a Story, I Quit matches, and Buried Alive matches.

It would also be great to see Dean Ambrose return in Showcase mode so we can play some of Roman's matches when he was with the Shield. It is probably unrealistic for the WWE would not want anything to do with him because he has signed over to AEW. Or how about an AEW pack with Jon Moxley and other wrestlers plus have Dean Ambrose as an unlockable character in showcase with two attires that you could unlock for one could be his Shield attire and the other one could be with his black or white tank top and jeans.

They should also add cool new match types like a Strap Match and let us hit finishers on steel steps, ladders, and barricades. Maybe even add DLC packs with wrestlers from AEW and TNA, just like Mortal Kombat does with crossover characters.

I would like to be able to have the option to have more wrestlers on a single team instead of just having 4 wrestlers on a single team maximally, like perhaps something like 10 or 12, or how about giving us the option to choose how many wrestlers we can have on our team.

For Showcase, I feel there should be three modes. One for Roman Reigns, one for Cody Rhodes, and another to relive great historic WWE matches. It would also be cool to have quick-time events in cutscenes, like in WWE 2K16. If let's say some people don't want to play through the entirety of Showcase then they should include a pack sort of like the Accelerator and the Supercharger pack combined where you unlock all the main unlockables in the purchasables menu like the superstars, arenas and championships alongside the Showcase unlockables.

HOW WWE 2K25 CAN IMPROVE OVER WWE 2K24

WWE 2K25 should fix some things to be better than WWE 2K24. First, the combo system should be removed because it doesn't fit the WWE 2K franchise and it felt like 2k were leaning into more fighting game mechanics.

When downloading a new attire, it should go on the wrestler's current model instead of creating a separate version.

MyRise should be replaced with a Road to WrestleMania mode, where you play as an existing WWE superstar like Cody Rhodes or Randy Orton.

The Irish whip system needs improvement because in WWE 2K24, there are times when I press circle without holding it, but my opponent still goes out of the ring, which feels frustrating and makes the game seem broken.

Finally, WWE 2K25 should have unlimited custom attire slots instead of just two which is what WWE 2K24 had which wasn't enough compared to WWE 2k19 which I think did have unlimited attire slots.

OUTRO

That's all for today! Do you agree that intergender matches should not be in WWE 2K25? And do you think MyFaction should be removed or improved?
