

More Photo Montage styles

Following on from Mikes Hockney joiner task you are asked to look at other forms of Photo Montage.

Art movements such as Dada and Neo Dada are famous for their montages but there are many artists not part of these movements who create their own work using collage and montage techniques.

Some artists use digital resources to create these whereas other artists use mixed media.

1. Research at least 2 artists who use montage as part of their work.
2. Re create your own montage in the style of the artist. Take your own pictures and use your own resources.
3. Annotate your work.
