

# WRITING YOUR PROPOSAL

**TASK:** Write a 200-250 word proposal for the Pocket Planet project

A proposal should clearly explain the concept and aims of your project, the research and ideas that will support its development, what you anticipate producing, the levels and types of resources that you will need and an indication of the form in which you will complete and present your project realisation within the allocated timescale.

**Use the following bullet points to help you structure your proposal:**

- What is your theme/concept/idea for the project?
- How have you generated/developed ideas?
- Which artists have you researched and how have they influenced and inspired your ideas?
- What other research have you done?
- What materials, techniques and processes do you intend using?
- How do you intend to test and experiment with your ideas?
- What ideas or thoughts do you have for a final outcome (you do not need to be specific at this point)?
- How will you present your final outcome(s) at exhibition (e.g. an A1 canvas)?

Ensure you proofread your work to correct any spelling, punctuation or grammar errors.
